Claims 16-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Applicants specification discloses that applicants non fluorinated block may have fluorinated substituents and it is therefore unclear what applicants intend by the term "non-fluorinated".

Applicant's arguments filed 10-18-05 have been fully considered but they are not persuasive. The examiners comment re paragraphs 22 and 24 of the specification had nothing whatsoever to do with symmetrical block copolymer formation or block copolymer formation itself but rather the production of a polymeric sequence of alternating copolymer in which HFP and VDF monomeric units alternated (which is subsequently converted into a block copolymer). The examiner takes applicants' word that applicants can produce such materials as discussed in the specification and for instance which appears in claim 17 which is limited to a block copolymer having a block of alternating copolymer. The examiner cannot comment on applicants Ying or Modena references since applicants have not submitted them. Though processes producing alternating copolymers are fairly unusual they are not unknown and the examiner has no information which would prove applicants are incorrect in this matter.

Applicants argue that the term "non-fluorinated block" is defined in the specification on pages 5 and 6 as referring to a block having no fluorine directly bonded to the backbone of the block. The examiner has reviewed pages 5 and 6 of the

specification and sees no such definition and in fact page 7, line 4 of the specification discloses vinylidene fluoride as a monomer for forming the non fluorinated blocks.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
